The following instructions apply to each of the Interrogatories set forth below, and are deemed to be incorporated therein:

1. Unless otherwise specifically indicated, and for purposes of these

Interrogatories only, the relevant time period shall be January 1, 2012 to present.

2. In responding to these interrogatories, You are required to furnish all information in Your possession, custody, or control, regardless of where such information is located.

3. In responding to each interrogatory, identify the person(s) most familiar with the facts concerned.

4. The fact that an interrogatory may be responded to by another party does not relieve You of the obligation to respond in full and provide the information in Your possession, custody, or control.

5. Each interrogatory is to be answered separately and as completely as possible. The fact that an investigation is continuing or that discovery is not complete shall not be used as an excuse for failure to answer each interrogatory as fully as possible. The omission of any name, fact, or other item of information for answer shall be deemed a representation that such name, fact, or item was not known to you, your attorney, or other representatives at the time of service of the answers.

6. In answering the following Interrogatories, you must furnish all available information, including information in the possession, custody, or control of your attorneys, directors, officers, agents, employees, representatives, associates, investigators, division affiliates, partnerships, parents, subsidiaries, and persons under your control, who have the best knowledge concerning such information, not merely information known to you based on your own personal knowledge.

7. If you cannot fully respond to any Interrogatory after exercising due diligence to secure the information requested, you must so state and specify the portion of each Interrogatory

that cannot be responded to fully and completely. You must further state what efforts were made to obtain the requested information, the facts relied upon to support the contention that the Interrogatory cannot be answered fully and completely, and what knowledge, information, or belief you have concerning the unanswered portion of any such Interrogatory.

8. If your response to a particular Interrogatory is a statement that you lack the ability to comply with that Interrogatory, you must specify whether the inability to comply is because the particular item or category of information never existed, has been destroyed, has been lost, misplaced, or stolen, or has never been or is no longer in your possession, custody, or control, in which case the name and address of any person or entity known or believed by you to have possession, custody, or control of that information or category of information must be identified.

9. If you object to any Interrogatory or any particular portion thereof, you must state with specificity the grounds for such objection. If you object to any particular portion of any Interrogatory, you are nevertheless required to respond to all other portions of such Interrogatory as to which there is no objection.

10. These Interrogatories incorporate all instructions set forth in Local Rule 26.2. If the attorney-client privilege, attorney work product doctrine, or any other privilege or immunity from discovery is claimed as to any response called for by these Interrogatories, you must describe the basis of the privilege claimed and the information alleged to be privileged in detail sufficient to enable the Court to decide if the privilege has been properly invoked, as required by Federal Rule 26(b)(5) and Local Rule 26.2.

11. Pursuant to Federal Rule 26(e), these Interrogatories are to be regarded as continuing in nature. You are therefore requested to provide, by way of supplemental response,

such additional information that you may hereinafter obtain that will augment or modify the answers now given.

12. The terms “all,” “any,” and “each” shall be construed as encompassing any and all.

13. The connectives “and” and “or” shall be construed either disjunctively or conjunctively as necessary to bring within the scope of the Interrogatory all responses that might otherwise be construed to be outside of its scope.

14. The use of the singular form of any word includes the plural and vice versa.

15. The use of a verb in any tense shall be construed as the use of that verb in all other tenses as necessary to bring within the scope of the Interrogatory all responses that might otherwise be construed to be outside of its scope.

16. Capitalized terms not defined herein shall have the meanings ascribed to them in the FAC.

17. The above-referenced terms and the individual Interrogatories should be construed broadly to the fullest extent of their meaning as permitted by the applicable Federal Rules and Local Rules.
